

READY FOR A NEW CHALLENGE?

We are looking for an
Android Developer
to expand our Triple A Team

WHO WE ARE

We are part of Triple A Internetshops GmbH, which is one of the leading e-commerce companies in Europe and serves over 18,000,000 customers and employs more than 500 people worldwide. This includes online shops like www.bilder.de, www.druckerzubehoer.de, www.eis.de, as well as a multitude of other shops and activities. Triple A is committed to consistently striving for growth and optimization across all business activities, and sees this commitment as a fundamental component of our economic success.

WHAT WE OFFER

At Triple A Technology Hub, we're proud to be a young and dynamic team that delivers on a range of exciting, challenging and far-reaching projects. In this role, you would collaborate with our experienced German and Ukrainian development team and business units in an agile environment. In addition to our positive work culture and a range of flexible work schedules, we are also committed to regular team-building activities to establish a warm, family-like environment where our employees feel supported and valued.

ABOUT THE ROLE

- Work closely with our project management office and development team in our German headquarters to define project scope, goals and deliverables
- Understand business requirements and translate them into technical requirements
- Implementing mobile applications, delivering new features as well as maintaining and improving the existing features with an incremental and continuous improvement approach
- Support the entire application lifecycle, including concept, design, test, release and support
- Stay up to date with the latest technology trends
- Mentor other developers in the team

ABOUT YOU

- Proven experience building rich, consumer facing and high-performance native Android mobile applications that delight users 4+ years
- Advanced Android SDK/ Kotlin/ Java experience
- Strong knowledge of Android API capabilities at different levels, programming and architecture patterns, framework components and lifecycles
- Android Play Store release and deployment process experience
- Experience with the full software development life-cycle for mobile applications, as well as, unit and UI tests
- Experience in web service integration (REST, JSON, XML), animations and transitions, Strong knowledge of collections, multithreading, I/O, Networking, generics, profiling
- Proficient understanding of code versioning tools, such as Git
- Experience with Android Clean, Dagger2, RxJava, Jetpack(ViewModel, Paging... etc) is a plus
- Strong English or German communication skills: level B1/B2 or higher
- A flexible personality with strong analytical and problem-solving skills
- Bachelor or higher diploma in Computer Science or related technical field

HOW TO APPLY

To apply, send your cover letter (including salary expectations) and resume to recruiting-kyiv@aaa-gth.com, using the subject line "Android Developer."
