

IS BUILDING APPLICATIONS YOUR GUILTY PLEASURE?

We are looking for a talented

Android Software Engineer (M/F/D)

WHO WE ARE

Triple A Internetshops GmbH is one of the leading e-commerce companies in Europe which serves over 18.000.000 customers and employs more than 500 people worldwide. This includes shops like www.eis.de, www.satisfyer.com, www.bilder.de, www.druckerzubehoer.de, and a multitude of other. The constant striving for further development and optimization is clear in the focus of all our businesses and is a fundamental component of our economic success.

WHAT WE OFFER

To further strengthen the growth of the Triple A family we insure our IT competencies at our new Technology Hub at the heart of Kyiv. There, you will become a part of young and dynamic team, working on exciting, challenging and far-reaching projects. You closely collaborate with our experienced international product teams in an agile environment. Our working atmosphere is modern, outstanding office located within the Business Centre Creative State of Arsenal. Our benefits include versatile and flexible working hours, medical insurance, sport and cultural activities – team building events.

ROLE

· As an Android Software Engineer you will build leading-edge mobile applications that will excite millions of users on Android platforms

RESPONSIBILITIES

- Work closely within a cross functional team of product owners, architect, UI designer and developers
- Based on KPI you liaise with the product owner to enhance application and service quality
- You create, implement and maintain leading-edge features within our mobile applications
- Support the entire application lifecycle, including concept, design, test, release and support
- Stay up to date with the latest technology trends and actively mentor your team mates

YOUR PROFILE

- 4+ years of commercial software engineering experience building rich, consumer facing and high-performance native Android mobile applications that delight users
- Advanced Android SDK/ Kotlin/ Java experience
- Strong knowledge of Android API capabilities at different levels, programming and architecture patterns, framework components and lifecycles
- Android Play Store release and deployment process experience
- Experience with Bluetooth (BLE) integration
- Experience with the full software development lifecycle for mobile applications, as well as, unit and UI tests
- Experience in web service integration (REST, JSON, XML), animations and transitions, Strong knowledge of collections, multithreading, I/O, Networking, generics, profiling
- Proficient understanding of code versioning tools, such as Git
- Experience with Android Clean, Dagger2, RxJava, Jetpack (View Model, Paging, etc.) is a plus
- English or German communication skills: level B1/B2 or higher
- A flexible personality with strong analytical and problem-solving skills
- Bachelor or higher diploma in Computer Science or related technical field

HOW TO APPLY

To apply, send your cover letter (including salary expectations) and resume to e-mail: recruiting-kyiv@aaa-gth.com, using the subject line "Android Software Engineer (m/f/d)."
