

ARE YOU STRIVE FOR CONSTAINT IMPROVEMENT?

We are looking for a talented DevOps Engineer (M/F/D)

WHO WE ARE

Triple A Internetshops GmbH is one of the leading e-commerce companies in Europe which serves over 18.000.000 customers and employs more than 500 people worldwide. This includes shops like www.eis.de, www.satisfyer.com, www.bilder.de, www.druckerzubehoer.de, and a multitude of other. The constant striving for further development and optimization is clear in the focus of all our businesses and is a fundamental component of our economic success.

WHAT WE OFFER

To further strengthen the growth of the Triple A family we insource IT competencies at our new Technology Hub at the heart of Kyiv. There, you will become a part of young and dynamic team, working on exciting, challenging and far-reaching projects. You closely collaborate with our experienced international product teams in an agile environment. Our working atmosphere is modern, outstanding office located within the Business Centre Creative State of Arsenal. Our benefits include versatile and flexible working hours, medical insurance, sport and cultural activities – team building events.

ROLE

· As DevOps Engineer you design and implement build, deployment, and configuration management that enables continuous integration and delivery pipelines for our portfolio of solutions. You analyze the technology currently being used and develop strategies and processes for further improvement and expansion. In your role you enable automated, fast, repeatable builds and handle code deployments in all environments

RESPONSIBILITIES

- Performs routine application maintenance and performance analysis to ensure the production environment runs smoothly including on-call rotation supporting 24x7 service uptime
- Ensuring that systems are safe and secure against cybersecurity threats

- Participates in project planning meetings to share knowledge of system options, risk, impact and costs vs. Benefits
- Document the design and architecture of the systems you build and educate team members on development and operations

YOUR PROFILE

- 3+ years of commercial experience working with one of technologies, such as Kubernetes, Swarm, Docker
- Experience in creation and support of high volume e-commerce applications or SaaS platforms
- 2 years of commercial experience configuring AWS or GCP services
- Scripting and software development skills using PHP, Composer, PHP Deployer, Bash scripting
- Experience with configuration management and orchestration tools
- Experience with continuous integration systems, such as GitlabCI, Bamboo
- A curious and flexible personality with strong analytical and problem-solving skills
- Ability to write in a clear and concise manner and to communicate effectively in English or German

HOW TO APPLY

To apply, send your cover letter (including salary expectations) and resume to e-mail: recruiting-kyiv@aaa-gth.com, using the subject line "DevOps Engineer (m/f/d)."
