

COMBINE THE ART OF DESIGN WITH THE SCIENCE OF PROGRAMMING!

We are looking for a talented

Frontend Software Engineer (M/F/D)

WHO WE ARE

Triple A Internetshops GmbH is one of the leading e-commerce companies in Europe which serves over 18.000.000 customers and employs more than 500 people worldwide. This includes shops like www.eis.de, www.satisfyer.com, www.bilder.de, www.druckerzubehoer.de, and a multitude of other. The constant striving for further development and optimization is clear in the focus of all our businesses and is a fundamental component of our economic success.

WHAT WE OFFER

To further strengthen the growth of the Triple A family we insource IT competencies at our new Technology Hub at the heart of Kyiv. There, you will become a part of young and dynamic team, working on exciting, challenging and far-reaching projects. You closely collaborate with our experienced international product teams in an agile environment. Our working atmosphere is modern, outstanding office located within the Business Centre Creative State of Arsenal. Our benefits include versatile and flexible working hours, medical insurance, sport and cultural activities – team building events.

ROLE

As Frontend Software Engineer you will combine the art of design with the science of programming. You collaborate as part of a crossfunctional team with multiple stakeholders and develop innovative user facing features for our e-commerce shops and mobile applications

RESPONSIBILITIES

- Translate UI/UX design wireframes to actual code and provide an extraordinary user experience, speed and scalability. You create libraries of reusable UI elements to optimize the front end development process and time to market
- Work with best in class technologies like JavaScript, React, Vue and stay up-to-date on emerging technology trends

- Write well designed, testable, efficient code by using best software development practices

YOUR PROFILE

- 4+ years of commercial software engineering experience as a front end software engineer for mobile applications and web front ends
- Deep expertise within modern Web 2.0 Applications and programming languages (HTML 5, CSS 3, JavaScript, SAA/SCSS, jQuery and other Java Script Frameworks)
- Hands on experience with Template Engines (Twig/Smarty), Web Services (REST, SOAP, etc.) and integration of Backend Systems (PHP)
- Proficient knowledge of code versioning and modern collaboration tools (GIT, Jira, Confluence, are desirable)
- A curious and flexible personality with strong analytical and problem-solving skills
- Experience in project planning, Agile development practices, preferably Scrum
- Ability to write in a clear and concise manner and to communicate effectively in English or German

HOW TO APPLY

To apply, send your cover letter (including salary expectations) and resume to e-mail: recruiting-kyiv@aaa-gth.com, using the subject line "Frontend Software Engineer (m/f/d)."
