

IS CLEAN CODE YOUR SPECIALTY?

We are looking for a talented

Full Stack Software Engineer (M/F/D)

WHO WE ARE

Triple A Internetshops GmbH is one of the leading e-commerce companies in Europe which serves over 18.000.000 customers and employs more than 500 people worldwide. This includes shops like www.eis.de, www.satisfyer.com, www.bilder.de, www.druckerzubehoer.de, and a multitude of other. The constant striving for further development and optimization is clear in the focus of all our businesses and is a fundamental component of our economic success.

WHAT WE OFFER

To further strengthen the growth of the Triple A family we insource IT competencies at our new Technology Hub at the heart of Kyiv. There, you will become a part of young and dynamic team, working on exciting, challenging and far-reaching projects. You closely collaborate with our experienced international product teams in an agile environment. Our working atmosphere is modern, outstanding office located within the Business Centre Creative State of Arsenal. Our benefits include versatile and flexible working hours, medical insurance, sport and cultural activities – team building events.

ROLE

As Full Stack Software Engineer you will be at the heart of software engineering practices, designing architecture, work with backend and front end parts, design core functionally & databases, introduce ongoing enhancements for multiple e-commerce web shops and mobile devices

RESPONSIBILITIES

- As a full stack developer you create comprehensive digital solutions for our business success by covering the full stack of technologies to integrate user-facing elements with server side logic
- You collaborate as part of a crossfunctional team with multiple stakeholders and develop innovative user facing features for our e-commerce shops and mobile applications
- Develop, extend and maintain web-based PHP software applications, plug-ins and modules for our e-commerce shops and internal business application
- Transfer layouts from our Design department into shop specific content and templates
- Write well designed, testable, efficient code by using best software development practices

- Integrate data from various back-end services, 3rd Party API, and databases
- Implement and maintain automated unit and integration tests
- Create and maintain software documentation

YOUR PROFILE

- 4+ years of commercial software engineering experience as full stack software engineer
- Proven software development experience in Object Oriented Programming with PHP and e-commerce software
- Deep expertise within modern Web 2.0 Applications and programming languages (HTML 5, CSS 3, JavaScript, SAA/SCSS, jQuery and other Java Script Frameworks)
- Experience with PHP MVC frameworks (e.g., Symfony) and template engines like Twig, Smarty
- Proficient in MySQL and writing of optimized SQL Queries
- Hands on experience with Web Services (REST, SOAP, etc.) and integration of Backend Systems
- Proficient knowledge of code versioning and modern collaboration tools (GIT, Jira, Confluence, are desirable)
- A curious and flexible personality with strong analytical and problem-solving skills
- Ability to write in a clear and concise manner and to communicate effectively in English or German
- Experience in project planning, Agile development practices, preferably Scrum

HOW TO APPLY

To apply, send your cover letter (including salary expectations) and resume to e-mail: recruiting-kyiv@aaa-gth.com, using the subject line "Full Stack Software Engineer (m/f/d)."
