

YOU'RE INTO CONSTANT DEVELOPMENT?

We are looking for a talented

Java Software Engineer (M/F/D)

WHO WE ARE

Triple A Internetshops GmbH is one of the leading e-commerce companies in Europe which serves over 18.000.000 customers and employs more than 500 people worldwide. This includes shops like www.eis.de, www.satisfyer.com, www.bilder.de, www.druckerzubehoer.de, and a multitude of other. The constant striving for further development and optimization is clear in the focus of all our businesses and is a fundamental component of our economic success.

WHAT WE OFFER

To further strengthen the growth of the Triple A family we insource IT competencies at our new Technology Hub at the heart of Kyiv. There, you will become a part of young and dynamic team, working on exciting, challenging and far-reaching projects. You closely collaborate with our experienced international product teams in an agile environment. Our working atmosphere is modern, outstanding office located within the Business Centre Creative State of Arsenal. Our benefits include versatile and flexible working hours, medical insurance, sport and cultural activities – team building events.

ROLE

· As a Java Software Engineer, you'll be involved in end-to-end activities, from design and architecture, through coding, testing, and up to deployment and monitoring, using the most advanced technologies and methodologies out there. You will work in close cooperation with IT management, product owners, QA engineers and DevOps team. You are a person with a positive mind, high motivation and willingness to work on our existing java-based solutions including new challenging projects. Collaborate with other engineers and ensure we follow solid engineering principles. Be a proactive team member with a constant passion for improvements.

RESPONSIBILITIES

- Develop highly scalable services based on the latest frameworks
- Contribute to all phases of software development lifecycle
- Design, build and maintain efficient, reusable and reliable Java code
- Ensure the best possible performance, quality and responsiveness of services
- Support continuous improvement by investigating new technologies and presenting these for architectural review

YOUR PROFILE

- 4+ years of commercial experience as Java Software Engineer
- Strong awareness of current Java development standards and frameworks (Spring Framework)
- Deep understanding of micro services architectural principles and developing RESTful APIs
- Experience in server-side, service-oriented solutions and creation of modular high-loaded systems
- Experience with relational and NoSQL databases (MySQL, MongoDB, PostgreSQL) and ORM technologies (Hibernate, JPA)
- Proficiency in understanding an existing codebase, learning from it and documenting/explaining
- Understanding of CI/CD practices including hands-on experience with unit/integration/API testing
- English on Upper Intermediate level

HOW TO APPLY

To apply, send your cover letter (including salary expectations) and resume to e-mail: recruiting-kyiv@aaa-gth.com, using the subject line "Java Software Engineer (m/f/d)."
